CUSTOM DENTAL & MEDICAL HAS EXPANDED SO MUCH OVER THE YEARS THAT WE NOW BELIEVE OURSELVES TO BE ONE OF, IF NOT, THE LEADING MANUFACTURER IN OUR FIELD.

ABOUT CUSTOM DENTAL & MEDICAL

Alan Moon established Custom Design & Develop Ltd in 1997. The main aim of the company was to provide bespoke dental cabinetry to the market at competitive prices.

In 2003 Eamonn Burke joined the company as an equal partner and director and brought with him over 20 years experience and many loyal clients.

Since then we have grown and currently our main products and services are dental cabinetry, solid surface worktops, dental decontamination areas, reception areas and, of late, we have expanded further into the design aspect, having access to an interior designer on a consultancy basis, who works along side our established design team.

Custom Dental & Medical has expanded so much over the years that we now believe ourselves to be one of, if not, the leading manufacturer in our field.

We are proud to say that we have built a professional, dedicated, highly skilled, highly knowledgeable and highly motivated

workforce of around 30 staff, who thrive on providing a service to meet our clients' high expectations.

To enable us to do this we make all our own furniture, fabricate our own solid surface worktops and we also have our own installation teams, this means that we don't sub contract in any way, thus keeping highly trained staff employed and valued.

We have a team and funding solely designated to innovation and design, enabling us to concentrate on development and improvement. This also means that if any regulations change within our industry that we are able to find quick solutions.

OUR PRODUCTS

The photograph opposite shows solid surface tops, moulded to three different heights to enable the surgeon and/or nurse comfort, whether standing or seated, with the desk being at the recommended 720mm high.

We manufacture bespoke dental furniture specifically to your own requirements, no matter what range you prefer.

We use only the best materials and hardware, state of the art machinery and our highly skilled workforce and installation teams.

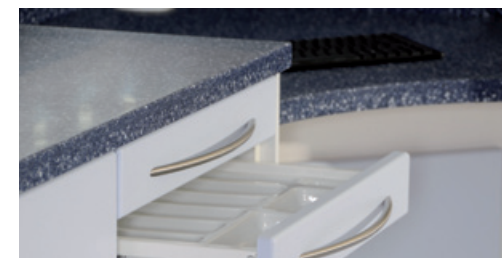

DESIGNED IN ANY CONFIGURATION
TO SUIT THE END USER.

CORPORATE RANGE

The corporate range delivers a very popular layout within the dental industry, designed with a lower corner desk section, for storage and usability; it can be designed in any configuration to suit the end user.

Wrap around Corian sides gives it a very stylish look and a wood grain finish, is just another option that Custom Dental & Medical can offer.

STUDIO LAYOUT

Our Studio Layout brings style, versatility and functionality to the user.

Using only the very best in materials such as Blum soft close mechanism, Dupont Corian, Staron solid surface and seamless thermoformed foil fronts. This ensures the very best in quality & materials being delivered to you.

Our studio Layout can be designed in almost any configuration to suit.

CONTEMPORARY LAYOUT

Our Contemporary layout offers something a little different in appearance.

Sleek and modern looking, with its minimalist approach, ensures a modern day contemporary look.

Again nothing is compromised when it comes to the design, construction and quality of materials

DOCKING MOBILES

Within seconds your surgery can be adapted from a right hand to a left hand set-up.

The mobiles can be moved closer or further away for additional versatility, they can be fewer to suit your hygienist, arranged tighter for implantology or shared between a number of surgeries, meaning one fixed flexible station is required at the rear.

The tops are constructed from solid surface with the handle contour designed to interlock into its opposite shape (Docking).

Colours and variations are endless even within your choice of 4, 5 or 6 units.

Registered design no. 20110816004

OUR DOCKING MOBILES ARE
ALL ABOUT VERSATILITY.

CORIAN RANGE

100% INTEGRAL, 100% CORIAN

MODERN CONTEMPORARY FURNITURE

C.A.D. DESIGN

At Custom Dental & Medical we are always aware of client requirements when it comes to design and planning.

We insist on only using the Industry Leader in Computer Aided Design, AutoCad 2012. AutoCad offers a broad array of analysis, design, documentation, detailing and calibration software solutions. This helps us to stay ahead within our industry.

Our highly trained in house design team have the ability to provide the right combination of professional CAD services that retain clients and attract new ones. AutoCad provides us with the tools to help streamline existing processes and workflows.

AutoCad also gives us the tools to help expand our role in the design process all the way through to fabrication and construction.

All this expertise is linked to the vast experience we have in Health and Safety. We always keep in mind, how to

design your project safely, Taking C.D.M (Construction Design Management) as serious as any other part of our business.

This qualifies us to a much higher standard than most in this matter, all this and access to a talented Interior Designer will make it very difficult to go elsewhere.

Any installations given in regard of radiation protection, the fitting of trolley equipment and/or cranes suitable to be guidance purposes only. It is your responsibility to ensure compliance with the relevant regulations under RIDDOR. This drawing should not be used as the basis for any design, construction work or procurement of services involving any equipment without the approval of your R.F.A.

3 CLEAN

THE DECONTAMINATION POD, TO DATE, IS OUR PROUDEST INVENTION.

Clean auto
clave area.

Corian hand
wash sink and
work top.

Storage space
and shelf.

The Decontamination POD has been designed with HTM 01-05 at the forefront. It is a revolutionary product, manufactured to solve problems that dentists face in relation to space.

It is only 1.1 meters in diameter and enables practices to keep the amount of surgeries it currently offers to the public. It accommodates most, if not all, the decontamination equipment on offer.

On the dirty side it has 2 Corian sinks, put down area, inspection area, space for washer disinfectant, magnifying glass, filtered clean air, reverse osmosis and ultra violet anti-bacterial pass through hatch.

Close the moulded solid surface doors and at the press of a button the Pod rotates 180° and presents the clean side.

On the clean side the Pod houses an area for your auto-clave (which during the rotation process has now lowered to a safer working height), Corian hand wash sink, Corian worktop, storage space and shelf.

Our Pod comes as standard with a reverse osmosis machine, ultra violet light, foot print, extraction fan (N.b this does not take place of the outward extraction fan), inspection light, connections to equipment such as the Dac and fitting. All constructed using anti-bacterial solid surface materials (Corian/ WilsonArt).

Custom Dental & Medical can provide a full range of traditional decontamination cabinetry, which can be viewed on our web site.

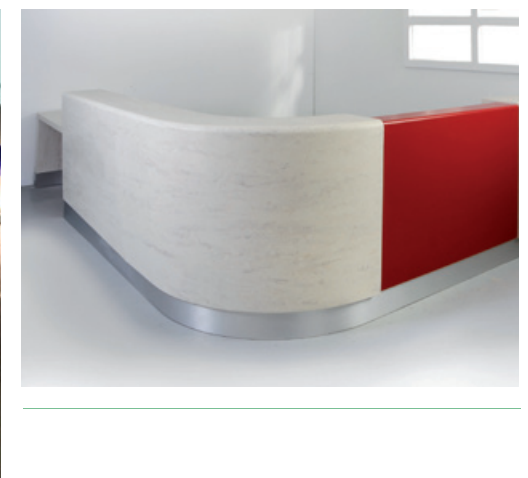

OUR RECEPTION DESKS AND FURNITURE
ENCAPSULATE EVERYTHING THAT CUSTOM
DENTAL & MEDICAL IS ABOUT.

RECEPTION DESIGN

Our Reception Desks and furniture need very little description, only to say that we feel that they encapsulate everything that Custom Dental & Medical is about.

The skill levels are plain to see and our design team and interior designer are responsible for most. We also work alongside top architects as you can see with our desk in The Christie Hospital project (AFL Architects, Manchester).

RECEPTION

ALL FURNITURE DESIGNED AND MANUFACTURED BY CUSTOM DENTAL & MEDICAL. ALL TIMBER FINISHES AVAILABLE.

RECEPTION FURNITURE

WELCOMING PATIENTS INTO YOUR PRACTICE WITH FURNITURE MANUFACTURED AND INSTALLED BY CUSTOM DENTAL & MEDICAL WILL PUT THEM AT EASE, AS IT IS EVIDENT THAT QUALITY IS APPRECIATED AND NEVER COMPROMISED.

Cabinet:
Lockable, glazed display cabinetry. Available in all timber finishes.

Reception Sofa:
Full leather settees of various sizes and finishes.

Coffee tables:
Coffee tables of various sizes and all timber finishes.

AIMS AND VALUES OF CUSTOM DENTAL & MEDICAL GROUP

The values we have at Custom Dental & Medical are few, but essential for us to go forward.

Firstly we value the contribution that we make to our industry with innovative problem solving and designs, along with the inventions we have made that enable you to work efficiently.

Secondly it is the skill levels we possess that constantly push us to greater product quality.

Our Aim is not profit or for that matter growth, it is to be the first and only

company that any professional thinks about when second best simply wont do. In following and believing in our own aims and values our profit and growth take care of themselves.

We look forward to working with you.

- Alan Moon and Eamonn Burke
