

PERFORMANCE STOOLS

Seating That's Made to Perform

A-dec 500 Performance Stools.

Ultimate Comfort for the Dental Team

You provide the best care for your patients when you're able to work comfortably. Now, a unique ergonomic seating solution allows you to do just that. The A-dec 500.

With years of research behind it, the innovative A-dec 500 stool is strategically engineered to help you feel your best, so you can perform your best.

Stools That Support Healthy Posture.

A-dec's new 500 stools were designed to conform and move with your body. Take the dynamic seat for example. Everything from the suspension frame to the flexible, body-conforming materials are there for a purpose: comfort and support. Easy-to-access paddles complete the customisation by allowing you to make adjustments to maintain ergonomically healthy posture throughout the day.

Healthy Seated Posture

Our answer to your ergonomic needs begins with adjusting the way you sit to avoid a damaging C-shaped spine. This healthy sitting posture is referred to as an "athletic stance." When you sit with hips above the knees and the backrest raised low and forward, your spine is able to maintain a healthy S-shape. The dynamic seat lets you enjoy both comfort and improved performance.

Four Points of Adjustability

Correct posture reduces stress on joints and spine, and provides better circulation for feet and extremities. A-dec 500 stools have easy-to-follow numbered paddles that encourage incremental customised adjustments throughout the day—especially important if there are multiple users.

Dynamic Seating System

Three layers of flexible seating conform to your every shift and move:

- 1. Cushion Foam** (top layer) - Forms a final tier of comfort.
- 2. Comfort-flex Armature** (middle) - Creates a body-conforming surface, based on four performance zones.
- 3. Flex Frame** (base) - Supports large scale movements.

A-dec 500 Stools

Welcome A-dec 500 Stools to the Family

Our new feature-rich A-dec 500 stools have a dynamic seating system with unique performance zones that mold to the shape of the body. These performance zones work in unison to keep you supported while you shift, lean and work. Other features, such as the contoured backrest, cradle the spine for ultimate comfort. With A-dec's ergonomic seating solutions, you can focus on what's most important—your patients.

STOOL FEATURES:

Tilt Seat

Distributes weight from seat to feet allowing proper circulation.

Contoured Backrest

Cradles the spine, while encouraging blood flow. Contoured backrest is standard on the A-dec 521 doctor's stool and optional on the A-dec 522 assistant's stool.

Upholstery

Minimal seams make clean up easy.

Standard Foot Ring (A-dec 522 Assistant's Stool)

Helps practitioner maintain correct posture.

Whisper Quiet Casters

New design provides smooth, ultra-quiet movement on both carpet and hard flooring.

Adjustment Controls

Numbered paddles are easy to access for quick adjustments and easy cleaning.

Backrest Height Control

A push button makes access and one handed adjustments easy.

A-dec 521 Doctor's Stool

A-dec 522 Assistant's Stool

A-dec 522 Assistant's Stool with Optional Foot Pedestal and Backrest

Optional Foot Pedestal

Replaces foot ring to better distribute weight from the seat to the feet for an "athletic stance."

A-dec 521 Doctor's Stool with Optional Swing-out Armrests

A-dec 521 Doctor's Stool Find the Right Height

To choose the right stool height, measure from hips to the feet.

Above 34" - Choose tall height
Under 34" - Choose standard height

A-dec 500 Stools Options & Accessories

Optional Swing-out Armrests

Three adjustments—width, height and rotation—give you greater support and mobility.

- Rest your arms while working in the oral cavity
- Slide armrests out of the way with ease
- Adjust armrest height
